# JULY HIGHLIGHTS

**Native Animals of SWPA with Allegheny County Parks 7/7 | anytime** Discover some of the different native animal species that live in our county by examining their skulls and pelts. Learn more about the animals that call our area home. Presented by the expert rangers at Allegheny County Parks.

**The Fascinating World of Carnivorous Plants 7/12 | anytime** Watch a cool video of author, Alvin Liu discussing the crazy world of carnivorous plants (like The Venus Flytrap!) Liu has amassed a collection of more than 200 species of these particular plants, including pitcher plants, sundews and butterworts. These plants thrive on water and sunlight like any other, but also eat insects, arachnids and even small mammals by trapping them in their modified leaves and slowly digesting them.

**Tour NASA's Jet Propulsion Lab 7/20 | 1:15-2:00** Ever wonder what it's like to work in NASA's Jet Propulsion Laboratory in Pasadena, California? Find out at this live guided tour of the facility. Live chat and ongoing Q&A available throughout the presentation. Great for all ages!

**Silenced, Suppressed Voices and the Power of Story 7/29 | anytime** University of Pittsburgh Professor, Uma Satyavolu, shares stories about stories that have been banned, challenged, silenced and suppressed. Please note, that challenging and controversial topics are discussed. Learn about the process behind the publication of James' Joyce's Ulysses and more! Register and watch the video anytime after the 23rd.

**Take-n-Make Kits for Everyone!** Every month, CSCL and Sharpsburg will have a variety of Take-n-Make kits available to pick up for adults, teens, families and little ones. Check our website calendar for the details on when and how to get them!

## Summer Learning Program

Read and do fun stuff this summer with us. Track what you're up to for prizes and incentives!
